

Dark What? Démystifier le buzz via la présentation d'un outil open-source et l'analyse des données trouvées

Avertissement

- **Sujet sensible pouvant choquer certaines personnes**
- **Aucune promotion**
- **N'encourage en aucun cas les actions illégales sur le Dark Web**
- **Le but de cette présentation est d'informer les gens sur le sujet**

Agenda

- **Comment fonctionne Tor**
- **Comment fonctionne les “Hidden Services”**
- **GoSecure FreshOnions**
- **Analyse**
 - Drogue, armes, vente de faux papiers, etc.
 - Boîtes mystères/Mystery boxes
 - Marché & Forums
 - Pornographie juvénile, trafic d’humain et Red Room
- **Conclusion**

Qui suis-je ?

Félix Lehoux

- Étudiant à l'ÉTS
- Chercheur en cybersécurité chez GoSecure (R&D)
- Membre de la délégation des compétitions informatique de l'ÉTS (DCI)

Sondage

- Qui a déjà entendu parler du Dark Web?
- Qui est déjà allé sur le Dark Web?

TOR

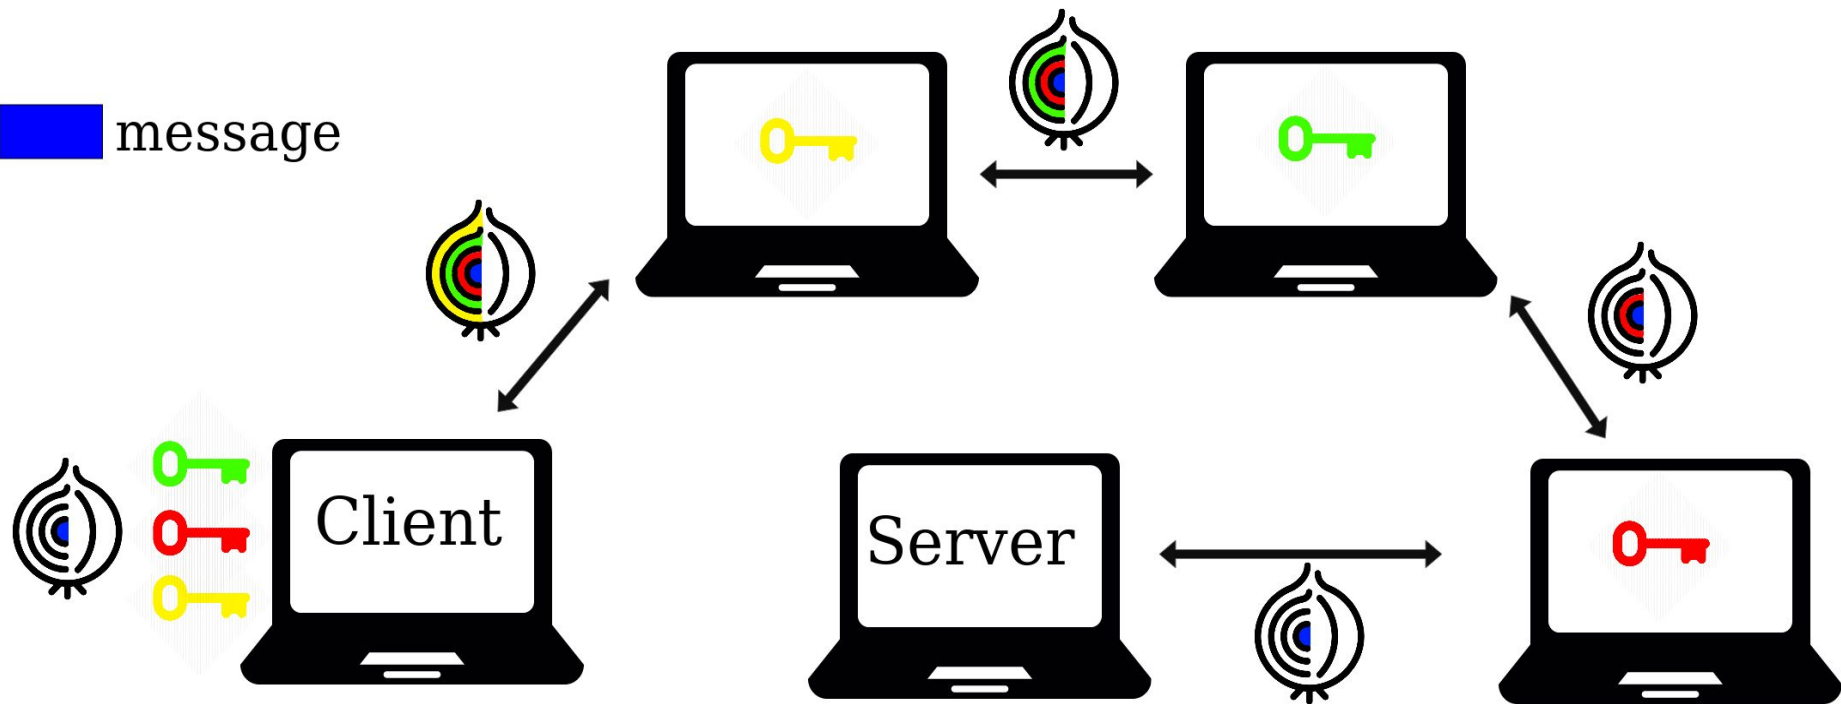

- Chemin du client au serveur est formé de plusieurs noeuds
- Noeud intermédiaire connaît le noeud précédent et suivant
- Effectuer requête prend plus de temps, car doit parcourir plusieurs noeuds

TOR

 message

Hidden Services

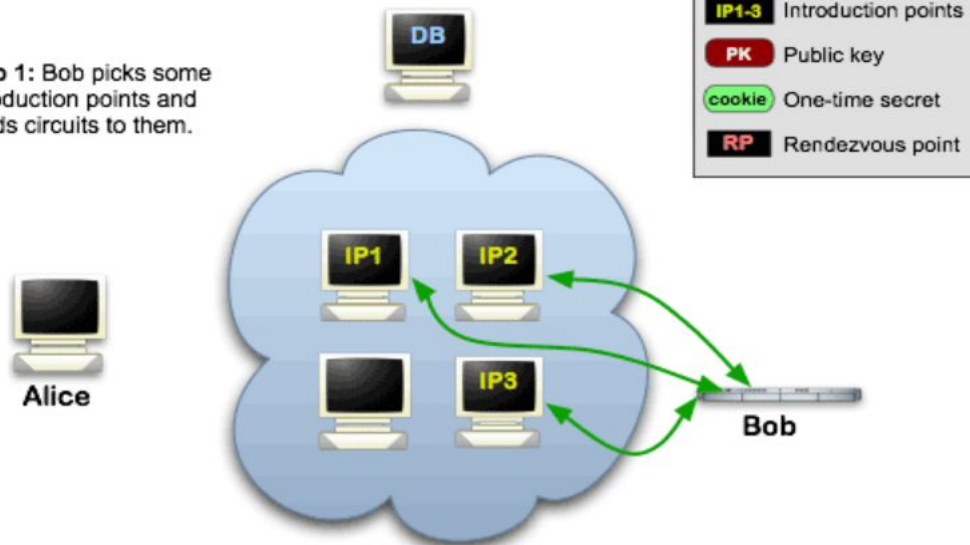

- **Connection entre le client et le serveur sans connaître l'identité de chacun**
- **Fonctionne avec un “point de rendez-vous”**

1ère étape

Onion Services: Step 1

Step 1: Bob picks some introduction points and builds circuits to them.

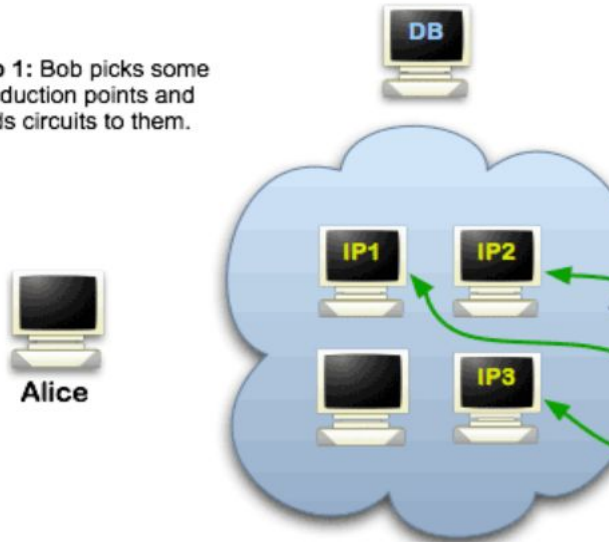

1ère étape

Tor Onion Services: Step 1

Step 1: Bob picks some introduction points and builds circuits to them.

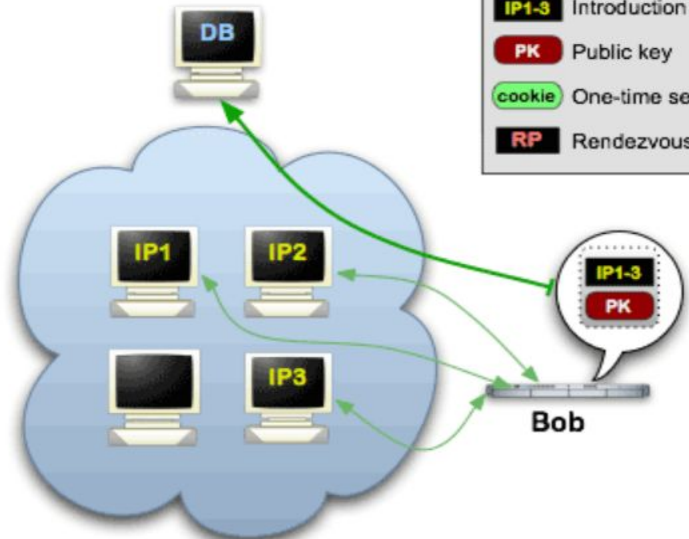

2ème étape

Tor Onion Services: Step 2

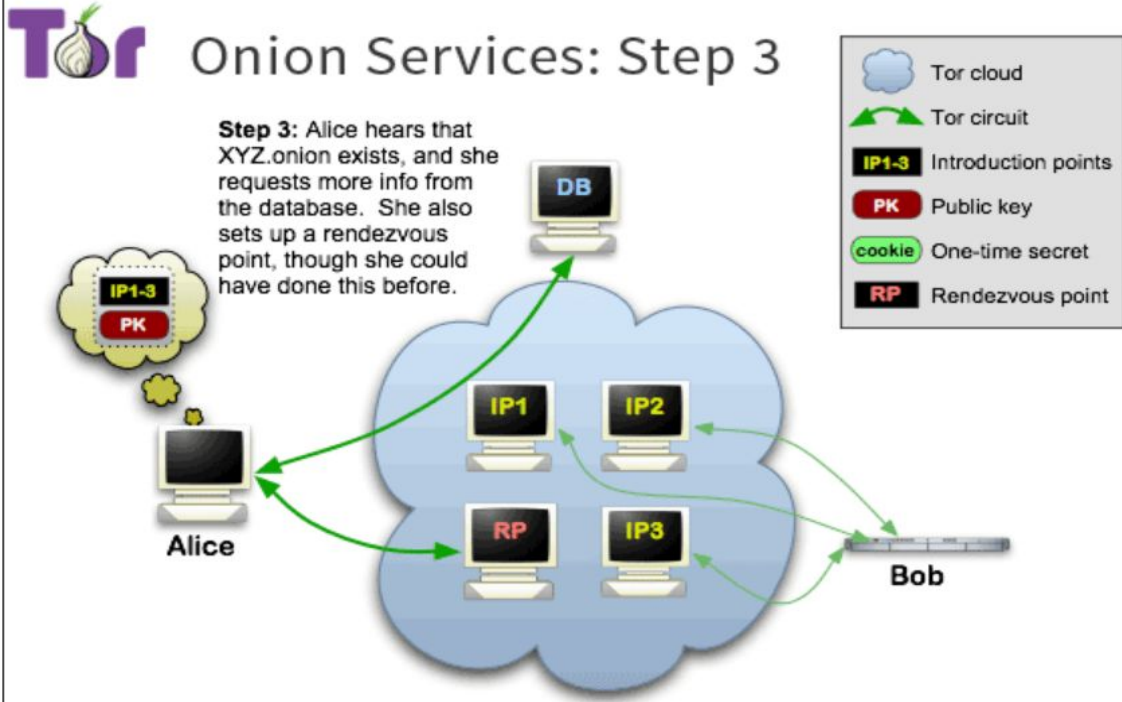

Step 2: Bob advertises his service -- XYZ.onion -- at the database.

Alice

3ère étape

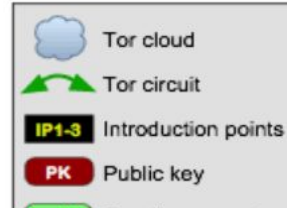

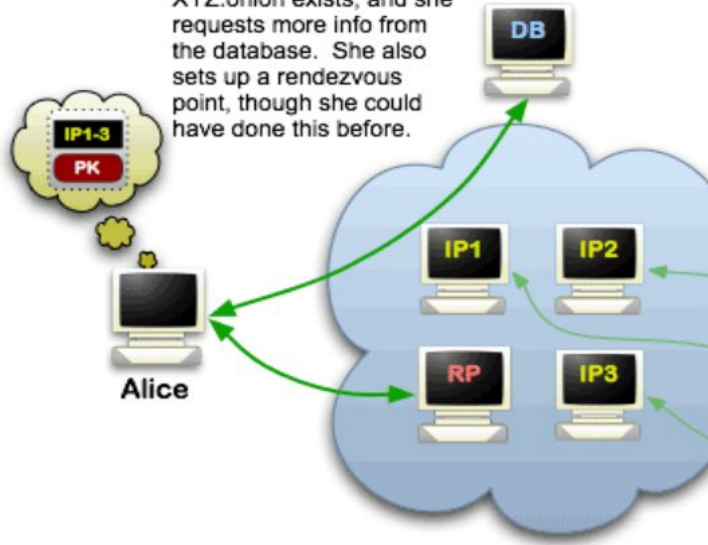

3ère étape

Tor Onion Services: Step 3

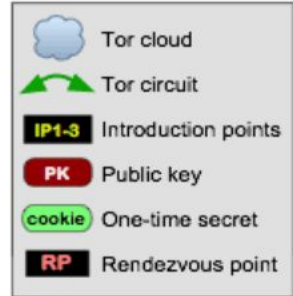

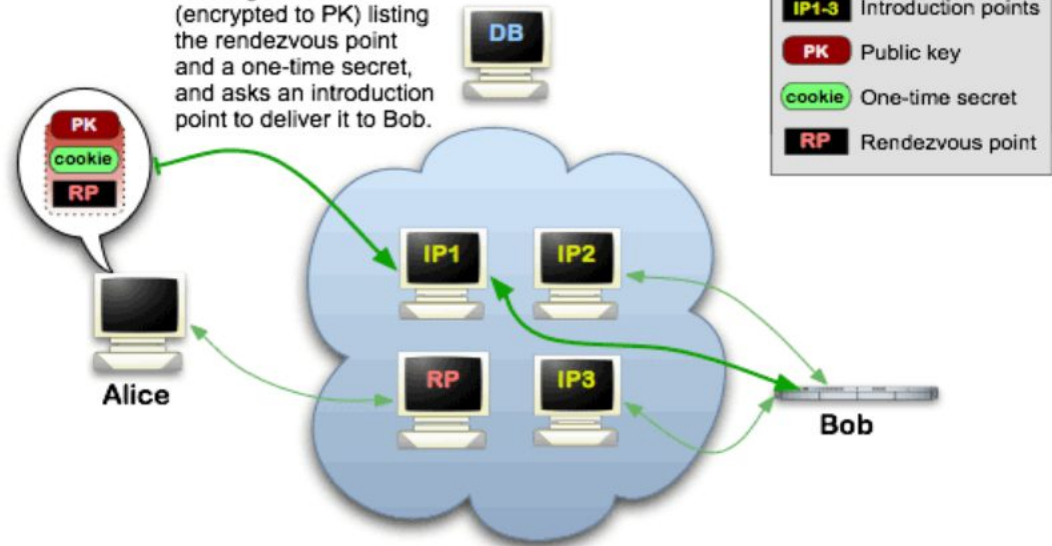

Step 3: Alice hears that XYZ.onion exists, and she requests more info from the database. She also sets up a rendezvous point, though she could have done this before.

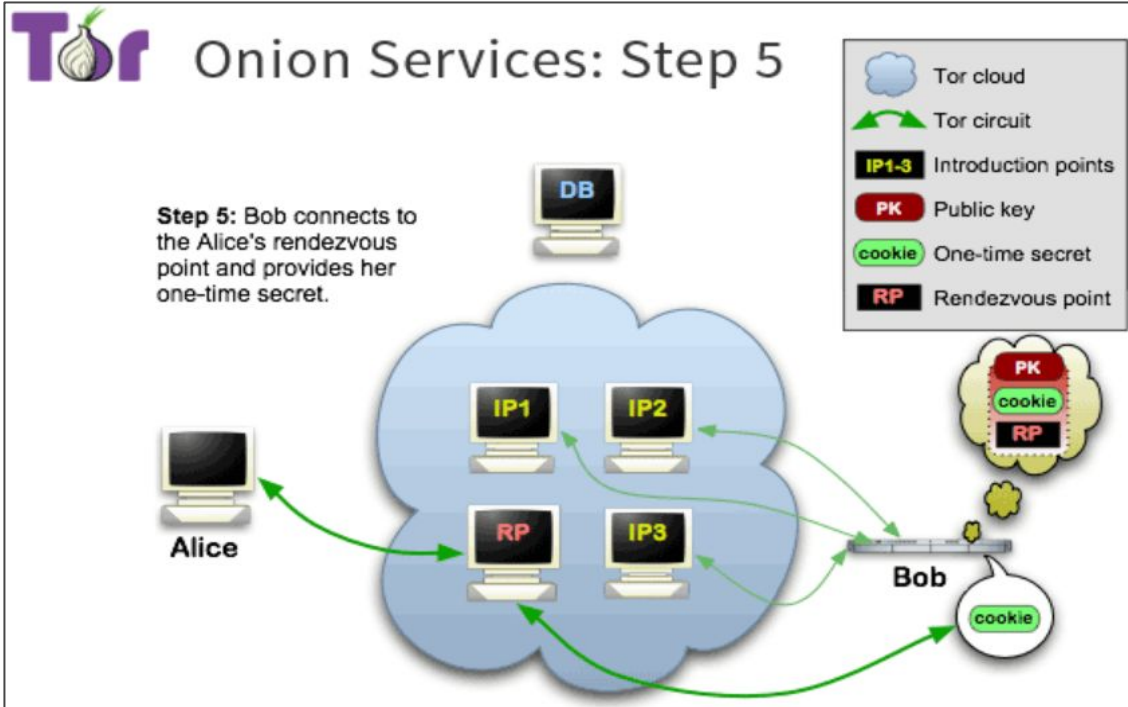

4ère étape

Tor Onion Services: Step 4

Step 4: Alice writes a message to Bob (encrypted to PK) listing the rendezvous point and a one-time secret, and asks an introduction point to deliver it to Bob.

5ème étape

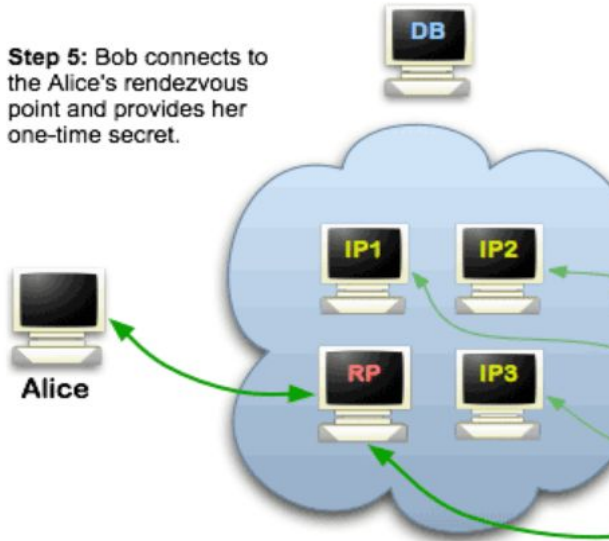

5ème étape

Onion Services: Step 5

Step 5: Bob connects to the Alice's rendezvous point and provides her one-time secret.

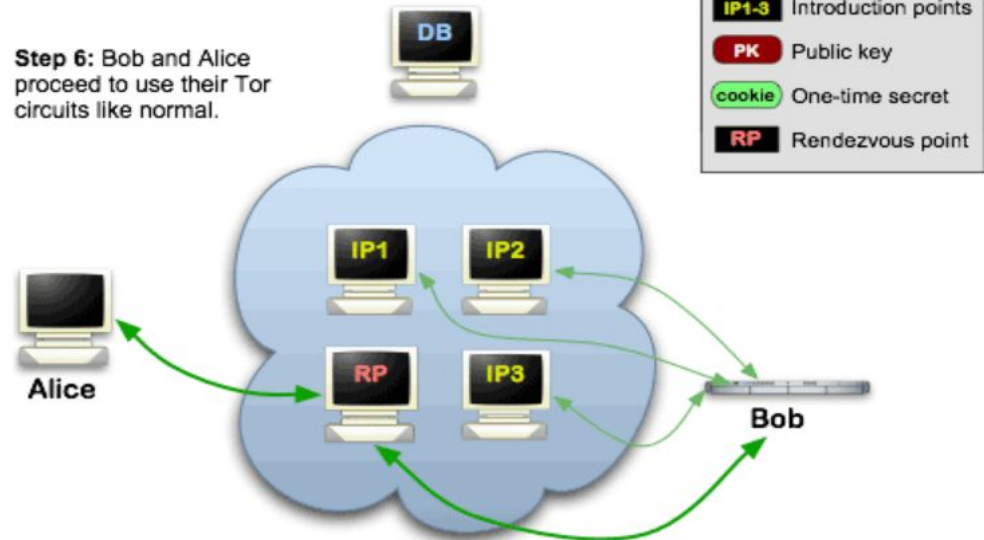

6ème étape

Onion Services: Step 6

Step 6: Bob and Alice proceed to use their Tor circuits like normal.

☐ inc. never seen ☐ alive only (☒ n/a ☐ genuine ☐ fake) ☐ show subdomains
☐ show fh default ☐ search title only ☐ match phrase

Utilisateurs

Fonctionnalités:

- Indexer le contenu des pages visitées
- Recherche dans le contenu indexé
- Liens entre les différents domaines
- Path intéressant (/admin.php, /phpmyadmin/, etc.)
- Détection d'adresses courriel, Bitcoin
- Pivoter avec une adresse courriel, Bitcoin ou un path. (Commun sur différents domaines)
- etc.

HOUSTON

WE HAVE A PROBLEM!

Problèmes rencontrés

- Documentation initiale
- Regex d'adresse Bitcoin et courriel
- Version d'Elasticsearch non compatible (< 6.0)
- Dépendances manquantes dans le fichier *requirements.txt*
- 1 script Bash pour un script Python
- Requier beaucoup de temps pour qu'il soit opérationnel
- Difficile de “crawler/indexer” le Dark Web

“Dockerizer” ce projet

- Moins de temps de maintenance
- Une procédure d'installation beaucoup plus facile et simple à faire
- Facilement déployable sur différentes machines
- Meilleure séparation des services (haproxy, privoxy, scrapy, elasticsearch, Kibana, MariaDB, etc.)

Tueur à gages

Murder Incorporated
professional hitmen *exterminate* Anyone

[Home](#) [How it works](#) [Pricing](#) [Order](#) [Security](#) [Frequently Asked Questions](#) [Contact](#)

The Murder Incorporated Hitmen is the proven legitimate Deep Web eBay of crime. We offer you a large international network of experienced hitmen who provide services to beat up, set fire or kill customers targets.

Anonymous customers privately post jobs and we assign a hitman in the same country of the target, with appropriate skills that match the job specifications. No expensive flights, nor expensive fake documents keeps the price to the lowest possible.

Our goal is to intermediate the business between customers and criminal service providers for a small fee while providing a secure way for payment and the highest level of security.

Customers are fully anonymous: no name, no email address, no phone number, no bank account nor credit card, no IP. Only an username and password. We advice customers to hide their IP using tools such as the Tor Browser, Proxies and VPNs.

Payment is secure via an anonymous way, zero risk: bitcoin and monero. The transaction is considerably safer than a street-based criminal service as we don't ask for any cash advance. Most hitmen on dark alleys require a 50% cash advance payment before the murder to protect them against losses from non-payment. You can't do much about it if the hitman takes the money and vanishes.

No risky meet-ups are required. You are exposed to the potential of blackmail if you meet a hitman face to face. On the internet, you are anonymous.

Hire a killer the safe and easy way, by providing only target information, while hiding your IP. We will assign a proven hitman who has already completed jobs in the same country as your victim. Our hitmen will be able to complete your orders efficiently and discretely.

The payment is through Bitcoin , 50% UPFRONT and 50% after the hit is successful. Bitcoin is an easy way to pay online, and it can be highly anonymous because the customer doesn't his credit card or bank account to our site. Bitcoin is one of the few payment methods that keeps the customer, market and hitman anonymous. Each job is done according to the customer requirements and we rely on satisfied users to spread the word.

When talking about a hired killer, most people imagine a slick assassin with a long sniper rifle waiting on a building. We have them but they are expensive and suitable for important hits. Most of the killing is done by low-level gang members who use a handgun and a hooded jacket waiting for the victim in a parking lot. We also can offer you smart assassins who make it look like an accident.

Why use a paid killer? Because it is affordable, safe and allows you to get away with murder. Make sure you are in a public place surrounded by people and friends when the murder is done, and no one will suspect you.

I want to buy firearms? You are best of purchasing firearms from <http://gunsganjikxjkw.onion/> which is specialized in this field.

FURY HITMAN

About 2 years back,I decided to be a bigger person, person who is more mature than the opposite person, the person who makes more mature decisions. The person that does the right thing despite not being advantageous to oneself.

It is a type of moral high ground,but world is not a good place to life,I've lived with bouts of deep depression my whole life.I'm not afraid or ashamed to say it. It's just the way that it is and what makes me, me. It's a part of who I am.

I don't think of it as mental illness or a disorder or a disease. It's just part of the way I'm wired. This may seem strange,

but frankly I don't think about it all that much anymore and I rarely talk about it. As I've gotten older my time in the dark has gotten less and less frequent and intense.

That's because I've found some very effective ways to deal with it.

so I decided to be a hitman

THE HITMAN

LOYAL FOR HITMAN DUTIES

Hardness began when i was excluded from military job intentionally. Suddenly i found myself creating my own hitman career, as he lapses in and out of consciousness he experiences flashbacks from...

My job is international, and my offers are extended to customers around the world providing assassination.

I never refuse any killing request.I am always looking for new bloody adventures. I am sincerely committed to my client.

I have many controllers around the world, provided with all weaponry needed and given the most dangerous functions.

No deal is made before paying me a tip of 1% of the quoted price.Another 30% must be paid when i provide realistic proof of my job execution.Finally the rest of the amount which is 69% will be paid after the job is totally completed.

The initial price for scheduled assassination depends on the target's importance, the amount of security that the target enjoys, and the chosen asset. I can be contacted by anyone.

Multiplicateur de Bitcoins

 100x Your Coins in 24 Hours - Officially Hidden Service Anonymous

How to multiply your Bitcoins hundredfold in a day?

No matter how secure and innovative would be Bitcoins, they are just some bytes on a digital storage medium and they can be copied as well as any digital information. We've thoroughly studied the Bitcoin client from within and have found an almost imperceptible but very significant flaw (associated with the commission), using it we have committed a Bitcoin transaction in which the recipient has received more Bitcoins than the sender has sent. Unfortunately, the difference is not so great (about 1%) and if you make only one transaction by a small amount your capital will not increase much, but if you make transactions permanently and by a large amount, you can get rich very quickly.

We've discovered this flaw recently and have not yet managed to win a lot, but every day we multiply our money hundredfold times and want to do it more. We all understand that such a freebie can not continue for a lot of time and this flaw will be found and corrected in the near future, but until that happens, we want to win as much as possible. That is why we have launched this website, where you can make an investment and we will multiply it twenty times. Half of this money we will give to you, it means that your investment will be returned to you hundredfold in the next 24 hours.

All you have to do is to transfer some Bitcoins to address listed below (we do not accept investments below 0.005 Bitcoins) and your investment will be multiplied hundredfold and will be transferred to your wallet within 24 hours.

Mystery Boxes

What is in these boxes?

Mystery Boxes - are parcels with hidden secret. These are the boxes that are so popular on youtube. In any of the boxes can be anything! From harmless toys and expensive gadgets, till such horrors from which you may vomit. This is something unforgettable!

We carefully collect every box, trying to impress each client. We can get absolutely everything and send it to you by Express delivery in a black box!

Now youtube is littered with videos of unpacking boxes from the dark net. Of course, most of them are fake, but among popular bloggers there is a video of a real box openings.

Welcome to Hack the galaxy 3 challenge!

[This is not a request to hack our website. Please read below]

This time around, the task is to build an onion web application. The requirement is pretty much the same as the previous competitions ([here](#) and [here](#)), but no static sites this time.

What is considered to be a web app is best explained here https://en.wikipedia.org/wiki/Web_application

Prizes:

1st place: \$35 USD in BTC

2nd place: \$25 USD in BTC

3rd place: \$15 USD in BTC

Sponsors of our competition are @Lameth, @eyez and @alcatraz

I accept the donations for the prize pool. PM me if you want to donate.

Rules:

1. No illegal content.
2. Only new web apps can participate
3. Your web app must be your original work. Branded open source projects may not apply.
4. Competition ends on 1/10/2019. The deadline is open for a discussion. We may allow more time.

To make your submission, either comment here or send me a private message.

If you are having trouble with hosting your own onion, comment here and someone will be able to help you.

Hosting: I encourage you to host your own stuff, since setting up onions and everything related is all part of the fun. However, if you're having trouble with it, don't want to expose your machine / VPS and / or for any reason you don't want to use the dHost, PM me, and I can make a special arrangement for you.

If you cannot reply to this post, you'll have to join the Programming Group first.

Galaxy3

- Orienté informatique
- Compétition
- Événement pour la communauté
- Membres du forum sont plus unis
- Règles strictes

The terms of service are pretty much following the rules. :)

1. No images of children. Including 3D or cartoon. Use your common sense, if in doubt ask before you post. DO NOT ask for these things either, you will be banned.
2. No public commercial trade. We don't want Galaxy3 turning into a market place targeted by Government agencies. Even harmless commercial trade will not be allowed, because what might be legal in your country may not be legal in another. This includes advertising, job offers, scams, or buying goods and services.
3. No pornographic content and / or gore in public areas (This includes sites linking to illegal content). Legal (18+) pornography / erotica and gore are allowed in closed groups.
4. Images and avatars are considered public content, so rule 1. and rule 3. apply.
5. No doxing or posting anything that may endanger someone.
6. Do not solicit members into committing a crime. This includes, but not limited to, hacking and carding requests.
7. Do not advertise criminal internet resources (clearnet or hidden) - by linking to them on the wire, in a blog post, in a group or other. This includes, but not limited to, the sites that contain illegal pornography, fraud, illegal vendor shops and markets.
8. Be respectful. Galaxy is a respectful community, allowing Freedom of Speech. Harassment will get you banned. Too much disrespect will get you banned. Use your common sense.
9. Do not spam. This is self explanatory.
10. Do not scam. This includes cyber begging. If you're running a legit charity, please consult the staff before advertising it.
11. Do not advertise extremist / terrorist material. If it's considered extremist / terrorist anywhere on the globe, it will be deleted and result in insta-ban for the user posted.
12. No public sex ads. This is not a dating site. The posts on the wire / groups / blogs will be removed. Repeated offenses will result in deletion of your account.
13. My word is law. If I decide something, that is what it will be. I will have the final say in everything. I am also open to discussing the rules. I too make mistakes, I am human as well. I will not ban you if I disagree with you, you can approach me with concerns, and we can talk about it. I am a very open minded person. If you feel treated unfairly, come to me. I want Galaxy3 to be for everyone.

 **My Information**

Sorry! Public key is required for two-factor authentication.

Here, you can edit your profile information including your password, store name, ICQ and PGP key. Be careful to avoid putting information that may reveal your true identity, such as real-life website, name or any piece of information that would allow somebody to find out who you really are. We value the privacy and safety of our users. Please note that your username cannot be changed. You can leave the password fields blank if you do not wish to change it.

2-Factor Authentication

TWO-FACTOR AUTHENTICATION

This account has two-factor authentication (2FA) enabled. For additional security, please use your PGP private key and decrypt the message below. Enter the 20 characters in the box below to proceed. If you lost your private key or put the wrong public key in your profile, please make a throwaway account and create a support ticket with reasonable proof of ownership.

Please note that 2FA is **mandatory** for all vendors on the market place. If you are a vendor and are seeing this, **this is normal**.

Les raisons pour lesquels je doute de leurs existences??

**1- Comment savoir que c'est MOI qui à payer et non un autre?
(Ils ont modifié la page pour ajouter un ID, mais ça ne change rien)**

2- Utilisation de TOR = processus de communication est plus lent. La cause est les nombreux noeuds dans la chaîne de communication.

3- Est-ce que les gens payent pour ça?

- Script permettant d'aller chercher toutes les adresses Bitcoin sur ces sites.
- Montant collecté (en moyenne) 0.002 BTC ~ 23.78 US au lieu de 0.2 BTC ~ 2378.38 US.

Les raisons

stances??

1- Commer
(Ils ont mo
rien)

et non un autre?

2- Utilisation de TOR = processus de communication est plus lent. La cause est les nombreux noeuds dans la chaîne de communication.

3- Est-ce que les gens payent pour ça?

- Script permettant d'aller chercher toutes les adresses Bitcoin sur ces sites.
- Montant collecté (en moyenne) 0.002 BTC ~ 23.78 US au lieu de 0.2 BTC ~ 2378.38 US.

Conclusion

- Contenu de surface dans le but de voler/escroquer les gens
- Possibilité d'une section plus effrayante, mais qui est difficile d'accès (doit connaître URL)
 - 16 caractères = 10^{24}
 - 56 caractères = 10^{78}

Merci de votre attention!
